

# 3U Vertical fiber chassis

## Product description

**3U Vertical chassis** for 19inch RACK cabinets. Fully customizable thanks to modular construction- wide range additional fiber modules available with up to 288 adapter mounts (adapters sold separately). Designed for high density fiber EPON/GPON installations.

High quality, **all-aluminium** construction, covered with anode colour paint.

For better accommodation of fiber patchcords, frame and modules are now moved back and mounted 50mm deeper.
