

Outdoor distribution cabinet

SSF 1360/620/445 144J

Outdoor distribution cabinet SSF-1360/620/445 with distribution field 144J. Meant to be used in building point-point network or FTTX.

Whole construction is made from aluminium and weighs only 19kg.

Perfect to build FTTX network. Cabinet consists of two parts:

- bottom part - base meant to be buried in the ground, 330mm high.

- top part - equipped with mounting space for SC adapters, up to 6 splice trays, 2 cable holders, splitters. Dismantled floor, with space for fiber optic enclosure.

Module has a switching field 144J (72 holes for SC Duplex adapters). Ability to mount PLC splitter. Modul fitted in the cabinet with a sliding rail. The top of the cabinet can be easily dismantled thanks to plug and lock connection.

Brass handle with cylinder and bolts right-left. Door additionally secured from moisture with a seal.
