ID: 5475

All-aluminium cabinet for telecommunication equippment, designed for mounting with frame for planting on concrete

Thanks to all-aluminium construction, presented solution is rustproof and light, weighs only 17kg. Thanks to those features this is the best alternative to heavy, prone to rust steel cabinets.

Outdoor distribution cabinet 15U STZ 962/625/400 is designed for FTTX use, mailny for protecting most valuable parts of the network like ONT devices, fiber patch pannels, splitters.

Inside the case there are adjustable RACK rails for mounting all the devices, fiber patch pannels and so other. At the top part there is mounting space dedicated for fan pannel, at the bottom there is removable floor with three holes (2x 27mm dia + 1x 45mm dia).

Metal hinges are protected against opening from the outside. Doors sealed using rubber seals and they are closed using two brass locks, also sealed by polymer seal.

Outdoor distribution cabinet 15U STZ 962/625/400 cabinet has replacable M3 filter mounted inside the roof that sticks out 0,5cm from the front of the cabinet.

Ingress protection rating: IP54, impact protection rating IK09.

Warranty period:
Rust: 25 years
Seals: 5 years
