

Anchoring clamp

I-69.PAT for self-supporting cables 3,6 kN 6 - 9 mm

ID: 6747

Anchoring clamp for self-supporting fibre optic cables. Can be used with cable diameters from 6 to 9 mm.

The complete bracket consists of components:

- Link made of stainless steel with a half-ring element for installation in the holder
- A thermoplastic component in the form of a body and internal locking wedges

Body	high-quality thermoplastic material with high mechanical and weather resistance, UV-resistant
Wedge	high-quality thermoplastic material with high mechanical and weather resistance, UV-resistant
Handle	stainless steel
Weight	0,12 kg
Minimum breaking force	3,6 kN
Cable clamp	6 - 9 mm
