

15-hole cross bracket

(L-109) with round pole mounting

ID: 6964

Cross bracket, for round poles - used for the construction of multi-track lines, mounted to the pole using an adjustable base and stainless steel bands.

The 15-hole steel cross bracket with mounting (metal clamp) for installation on round poles is an important component in the construction of telecommunications networks. The design of the set makes it possible, i.e. to install all types of anchoring clamps, suspension clamps and screw-type clamps. The bracket is screwed to the clamping ring using two screws.

Included:

- 15-hole cross bracket
- Mounting (metal angle brackets with steel tape holder)
- Screws: M14(x2)

Crossbar dimensions:

- Length: 1090 mm
- Width: 40 mm
- Height: 40 mm
- Thickness: 4 mm
- Number of holes: 2x15
- Hole diameter: 15 mm or 21 mm
