

# Outdoor distribution cabinet

24U STZ 1464/816/625 IP54

All-aluminium cabinet for telecommunication equipment. Outdoor distribution cabinet 24U STZ 1464/816/625 is designed to be mounted on the Fibertechnic 800x600 plinth (sold separately).

Thanks to all-aluminium construction, presented solution is rustproof and light, weighs only 41kg. Thanks to those features this is the best alternative to heavy, prone to rust steel cabinets.

Outdoor distribution cabinet 24U STZ 1464/816/625 is designed for FTTX use, mainly for protecting most valuable parts of the network like ONT devices, fiber patch panels, splitters.

Inside the case there are adjustable RACK rails for mounting all the devices, fiber patch panels and so on. At the top part there is mounting space dedicated for fan panel, at the bottom there is removable floor with holes.

Metal hinges are protected against opening from the outside. Doors sealed using rubber seals and they are closed using two brass locks, also sealed by polymer seal.
