

Przełącznica światłowodowa

ODF na szynę DIN 8xSC simplex /LC duplex

ID: 8961

Fiber optic distribution box with 8xSC simplex panel designed to terminate fiber optic cable and weld fibers with pigtails.

The switch has the option of mounting up to 8xSC simplex adapters and welding trays. Intended for use in distribution and connection points. Very good solution for terminating fiber optic 1-12J cable in storage facilities, or production halls where there is no Rack type data communication cabinet.

The whole is made of steel sheet and powder coated in light gray.

dimensions	126x138x35mm
weight	0.9kg
stuff	plate
colour	light gray
